

ADVANCE PATIENT CARE WITH MAGSTIM CONNECT AND ANALYTICS

Consistent connected care across networked sites, even remotely managing patient treatment plans.

Designed to enable multiple compatible TMS therapy systems to be managed by one central system. This allows treatment templates, patient records, and treatment history to be securely shared between treaters and treatment sites.

WHY PATIENTS AND CLINICIANS ARE CHOOSING TMS

- Comfortable and stable treatment experience.
- Precise and personalized treatment plans.
- Non-invasive treatment solution.
- No sedation or anesthesia is required.
- TMS has effective results.

REASONS WHY CLINICS CHOOSE MAGSTIM TMS

- No pay-per-use plans.
- Dedicated US and UK Support Team (Sales, Service, and Training).
- Quick installation service.
- Original innovators of TMS, 30+ years in the industry.
- In-person and virtual training.
- Quick response times.

"The H3 is fantastic. It really is so simple in the way it is set up. It's very patient-friendly and clinically effective"

John Cavanagh, RestoreBrain

HORIZON^{3.0}

WITH STIMGUIDE PRO NAVIGATION

ELEVATE PATIENT CARE & ADVANCE YOUR PRACTICE WITH MAGSTIM TMS

magstim.com

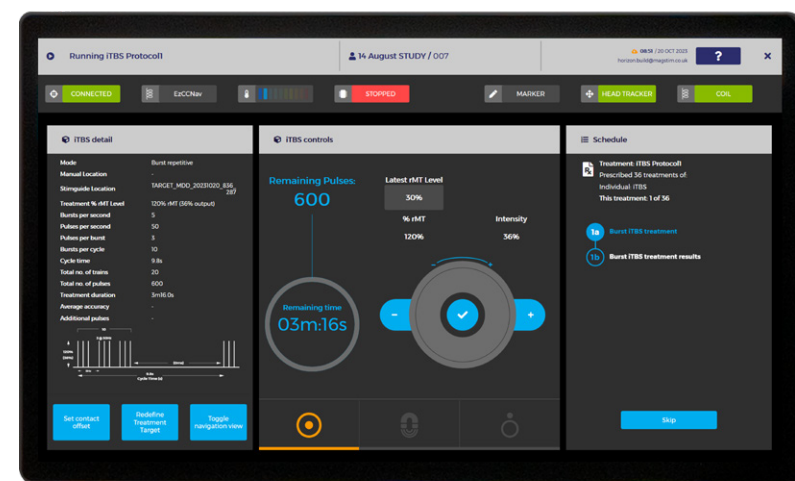

INTRODUCING HORIZON 3.0 WITH STIMGUIDE PRO AND MAGSTIM CONNECT

WHERE ADVANCED TECHNOLOGY MEETS PATIENT-CENTERED CARE

Horizon 3.0 is FDA-cleared for clinical treatment of MDD, OCD, and decreasing Anxious Depression symptoms*.

HORIZON 3.0 ADVANTAGES

- Intuitive preset clinical workflows.
- Customizable treatments.
- Treatment accuracy.
- Powerful data analytics.
- Correct and consistent dosage amounts with no pulse decay.
- Magstim's air-cooled coil technology eliminates downtime and extra expenses.
- MEP functionality.

E-z COOL COIL

- Dual high-power air-cooling, designed to provide superior cooling ability.
- Capable of delivering back-to-back treatment protocols to minimise downtime between patients.
- Air cooling automatically adjusted in relation to coil and room temperature.

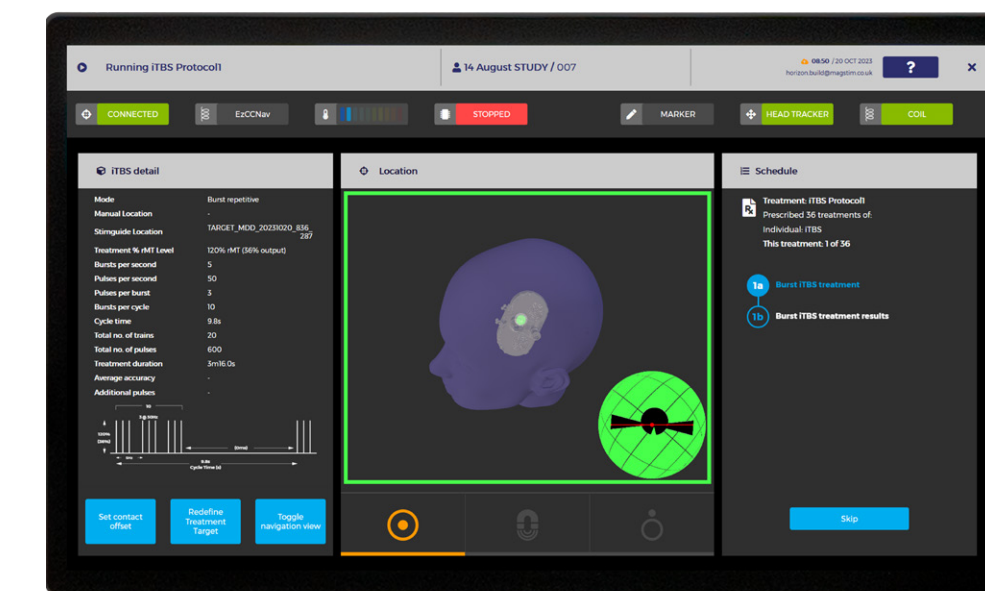

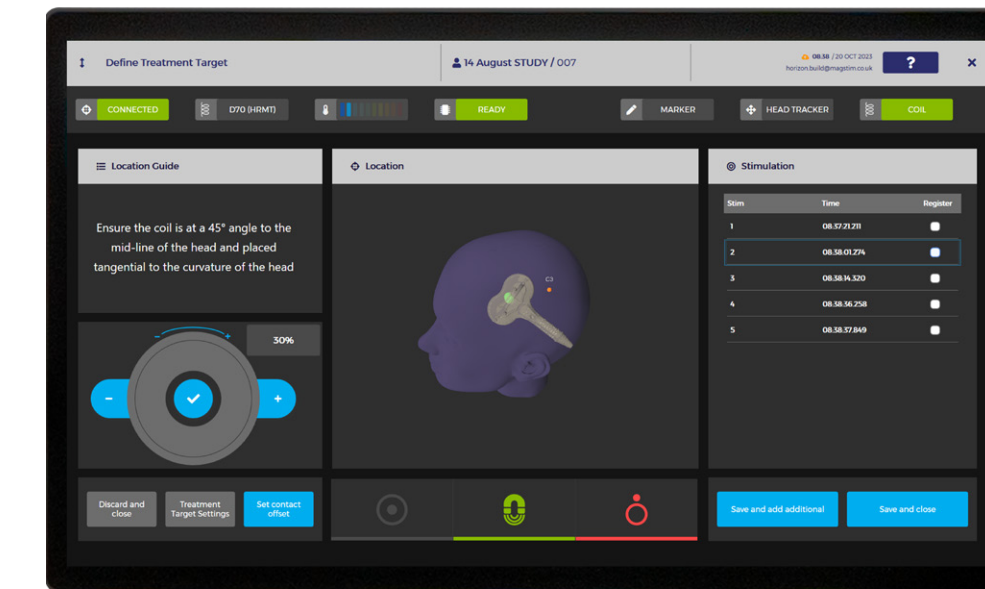

HORIZON MT COIL

- Designed for motor threshold assessment.
- Controls located on the coil for ease of use.

INTRODUCING STIMGUIDE PRO NAVIGATION

Designed to improve coil positioning, where repeatability and accuracy matter the most.

- New camera for improved accuracy.
- Improved navigation workflow.
- Reduces the risk of off-target stimulation for consistent results.
- New bluetooth anatomical pointer tool for improved user experience.

"I like it a lot; with just one screen, this system is simple to use and navigate. The new Bluetooth anatomical pointer makes it easy to map and treat patients."

Senior TMS Technician,
Florida, USA.
