HORIZON[®] inspire

Be inspired to make a difference to patient healthcare.

Introducing the Horizon Inspire, FDA-cleared Transcranial Magnetic Stimulation (TMS) for clinical treatment of MDD, OCD and decreasing Anxious Depression symptoms*.

HORIZON INSPIRE TMS ADVANTAGES

- Intuitive preset clinical workflows
- User friendly
- Portable device between clinic rooms
- Cost effective
- Customizable treatments
- MEP functionality
- Powerful data analytics
- Correct and consistent dosage amounts with no pulse decay
- Magstim's air-cooled coil technology reduces downtime and extra expenses

HORIZON AFC COIL

- High-power air-cooling
- Designed to deliver back-to-back treatment protocols, minimising downtime between patients

HORIZON MT COIL

- Designed for motor threshold assessment
- Controls located on the coil for ease of use

WHY PATIENTS AND CLINICIANS ARE CHOOSING TMS

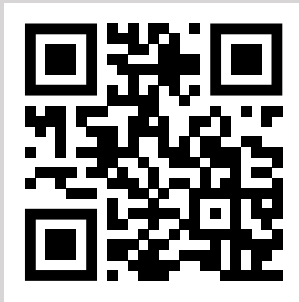

- Comfortable and stable treatment experience
- Precise and personalized treatment plans
- Non-invasive treatment solution
- No sedation or anesthesia is required

REASONS WHY CLINICS CHOOSE MAGSTIM TMS

- No pay-per-use plans
- Dedicated US and UK Support Team (Sales, Service, and Training)
- Quick installation service
- Original innovators of TMS, 30+ years in the industry
- In-person and virtual training

MAGSTIM CONNECT AND ANALYTICS

Consistent connected care across networked sites, even remotely managing patient treatment plans.

RX Only: Federal Law restricts this device to sale to (or on the order of) a practitioner licensed by the law of the State in which he/she practices to use (or order the use of the device).

**The Horizon Inspire is a configuration of the Horizon 3.0 TMS therapy system. The FDA has previously cleared the Magstim Horizon 3.0 TMS Therapy System for the treatment of depressive episodes for decreasing anxiety symptoms for those who may exhibit comorbid anxiety symptoms in adult patients suffering from Major Depressive Disorder (MDD) - also known as Anxious Depression.*
